# The new VACUETTE® VISIO PLUS Needle

## VISIO PLUS

The new VACUETTE® VISIO PLUS needle with optical venipuncture control can make an important contribution to simplifying blood collection routine for phlebotomists. The needle has a translucent plastic hub, which functions as a view window.

If venipuncture is successful, the view window is coloured red due to the blood flow.

greiner bio-one

The new **VISIO PLUS** needle guarantees a safe blood collection procedure for the patient, whilst at the same time ensuring best possible comfort. Optical venipuncture control via the view window makes it a lot easier to find the vein lumen.

Movement in the penetration channel, which can be painful for the patient, can be avoided with the **VISIO PLUS** venipuncture aid.

The special needle tip design makes penetration of the tissue easier.

**VACUETTE®**  
VISIO PLUS NEEDLE

To be able to differentiate from the **VACUETTE®** standard needles, the new **VISIO PLUS** blood collection needles have transparent needle cases.

The **VACUETTE® QUICKSHIELD** Safety Tube Holder is especially suitable for use in daily blood collection routine. Without the need to change collection technique, the holder helps prevent needlestick injuries.

## VACUETTE® QUICKSHIELD Safety Tube Holder

- 1 Activated with the aid of a solid surface.
- 2 Comfort through one-handed activation.
- 3 User-friendly - dot on needle container allows user to choose which side the **VACUETTE® QUICKSHIELD** Safety Tube Holder should be positioned for optimal venipuncture.
- 4 Exclusively for use with **VACUETTE®** Multiple Use Drawing Needles or **VACUETTE® VISIO PLUS** Needles.
- 5 No changes to collection technique.
- 6 Especially safe as the fingers remain behind the needle tip at all times.
- 7 The protective cap is attached to the holder, remaining stable. Once activated there is no chance of the protective cap coming off.
- 8 An audible click indicates to the user that the protective cap has been fully activated.

(This step is not applicable for QUICKSHIELD Complete & Complete PLUS)

## NEW! VACUETTE® QUICKSHIELD Combination Product

### VACUETTE® QUICKSHIELD Complete (Safety Tube Holder & VACUETTE® Multiple Use Drawing Needle Combination Product)

- 1 The holder comes with pre-attached needle, sterile and single-packed.
- 2 It is not necessary to thread in the needle.
- 3 A practical, ready-to-use solution that saves time.
- 4 Handling is optimised.

### VACUETTE® QUICKSHIELD Complete PLUS (Safety Tube Holder & VACUETTE® VISIO PLUS Needle Combination Product)

- 1 The holder comes with pre-attached needle, sterile and single-packed.
- 2 Transparent view window for optical venipuncture control.
- 3 It is not necessary to thread in the needle.
- 4 A practical, ready-to-use solution that saves time.
- 5 Handling is optimised.
